➤ English Version Features Introduction

<u>1. Annotation File Management Module</u>	
	Download pdf with annotations mark
	PDF extractor
	Output annotations (.json)
	Import annotations (.json)
	Download annotation text (.txt)
	Change language (English/Chinese)
	Highlight brush width and colors setting

✓ Flexible file management module

- ① Save **Annotations**: Save annotations within the **PDF** file.
- ② PDF extractor: Extract some pages from original pdf and form a new pdf.
- ③ Export Annotations: Export annotations in JSON format, can be stored in databases and future reloading.
- ④ Import Annotations: Import and reload JSON format annotations.
- ⑤ Export Annotations: Export annotations and comments as .txt files.
- ⑥ Switch Language: Toggle between Chinese and English interface.
- ⑦ Settings: Annotations style setting, including highlight color, underline color and width, brush width and color, text style and so on.

2. Annotation Features Module

	Select annotations to modify (color/angle/size/position/opacity)		Add arrow
	Open/Close annotations list		Add rectangle
	Highlight text (cross page support)		Add circle
	Underline text (cross page support)		Add straight line
	Insert image		Add id card stamp
	Screen shot from PDF page		Add check
	Free draw		Hyper Link
	Add textbox		

✓ Powerful pdf annotation features

- ① Edit Annotations: Adjusting annotations' color, rotation, size, position, and opacity.
- ② Annotation List: Manage annotations by copying/deleting, drawing connecting lines, and adding comments.
- ③ Text Highlight: Highlight selected text (across pages support).
- ④ Text Underline: Add underlines to selected text (across pages support).
- ⑤ Insert Image: Integrate images such as electronic signatures into your PDF.
- ⑥ Document Screenshots: Capture and save PDF pages as PNG images.
- ⑦ Freehand Drawing: freehand annotations.
- ⑧ Hyper Link: Link to URL, Page or Online File.
